

SRI A. R. BADARINARAYAN.—No doubt the location of irrigation projects is in Shimoga district but the utilisation is in other districts. It is a misnomer to think that in Shimoga district irrigation facilities are more than in other districts. Is it not a fact?

SMT. E. E. VAZ.—Other districts also have irrigation potentialities. But based on the extent of irrigated land the levy paid by Shimoga district is not as much as is given by other districts where there are no such facilities. But if any other incentives could be given naturally Government will consider.
